Exercise 5: Containers
SummerSchool 2019, Curitiba

Overview

So far we used Cloud Computing with Infrastructure as a Service, working with virtual machines. The next exercises will introduce Containers. This exercise is about:

- ❖ Learn about Containers and their relation to virtual machines
- ❖ How to install and use LXC containers
- ❖ How to install and use Docker containers
- ❖ Multi-tier applications like Mediawiki with Docker and Dockerfile
- ❖ Docker-compose for single-host orchestration

Lessons

1. Concept of Containers
2. Mediawiki with Docker
